

BASF Parking Expansion

Container Move

March 1, 2008

Phoenix, Arizona

03/02/2008

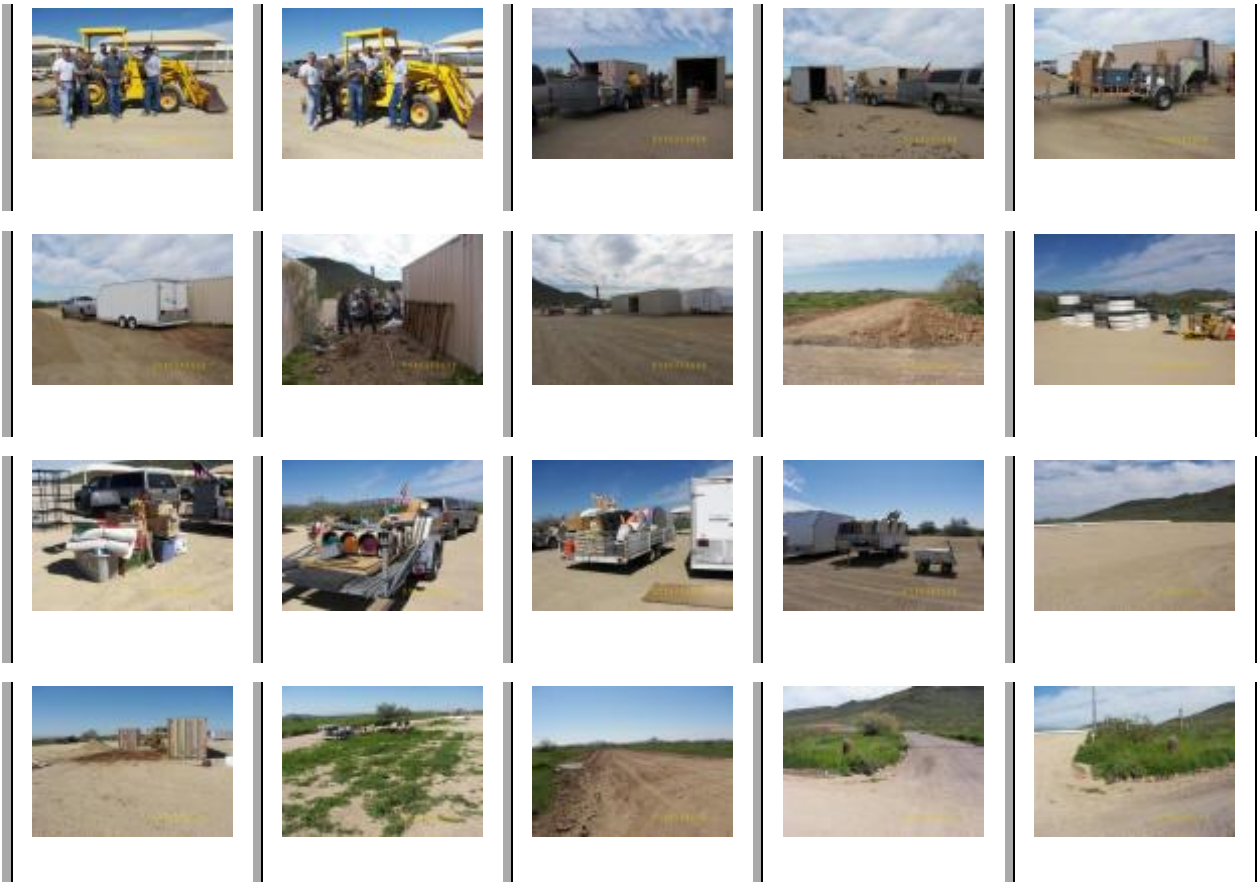

AZ Game and Fish Department, Ben Avery Shooting Facility, Arrowhead Materials, Kilauea Crushers and Mel Nichols teamed up to increase the BASF parking lot to the west and provide for a new storage area.

As a result, the ASAA and AZ Junior and Collegiate Archery storage units needed to be moved. **Dean Keiborz, Steve Yturralde, Clinton Costello, Mel Nichols, Mark Penaz, Bob Pian and Janice Price** volunteered on Saturday 3-1-08 to unload, move and reload the units. Keiborz, Penaz and Nichols trailers helped to make the move go smoothly.

A commercial towing company (Western Towing) moved the containers in an hour and a half. By days end, Mel had fine graded the new parking lot and the area where the old units were stored.

Thank you to all the volunteers! We could not get the job done without you!

The next field prep for the weekend is March 15-16, 2008. Email azjoad@cox.net if you are considering coming out and volunteering.

Sunday March 2 The storage units contents were sorted and the trash and old items were taken to the dumpster.
